## OBJECTIVE

---

I am a software engineer with a strong foundation in software engineering and a passion for web development. I possess excellent collaborative teamwork and conflict-resolution skills, and I am committed to using my technical expertise and innovative mindset to excel as a software engineer.

## EDUCATION

---

**Bachelor of Technology in Computer Science and Engineering**, MIT-WPU

2023

CGPA-8.69

**Diploma in Computer Engineering**, MIT Polytechnic

Percentage-72.31

## SKILLS

---

- **Programming Languages:** Java, C/C++, Python
- **Database Technologies:** SQL Server, MySQL
- **Web Development:** HTML5, JavaScript, CSS

## EXPERIENCE

---

**Software Engineer Intern**

July 2022 - Mar 2023

Splashgain Technology

*Pune*

As a Software Engineer Intern at Splashgain Technology, I improved online exam solutions using ASP.NET and SQL. I gained valuable experience in designing and implementing reliable software solutions and ensured smooth exam operations and a positive user experience.

## PROJECTS

---

**Road Pothole, Driver Drowsiness Alcohol Detection System (Machine Learning-Python)**

Our system uses AI and visual information to detect drowsy or intoxicated drivers and alert them. Additionally, we detect potholes to prevent accidents. This technology has the potential to reduce accidents caused by these factors greatly.

**Wedding Planner (ASP.NET, SQL)**

Streamlined the process of hiring reliable vendors and service providers for weddings through Wedding Planner's user-friendly marketplace, significantly reducing planning time and stress for users. Revamped Wedding Planner website, implementing HTML, CSS, and MySQL for efficient backend management and database handling; reducing wedding planning stress and time for users.
